Learning Objectives
Tech Presentation - Node.js

INSTRUCTOR: Charlie Giles

Overview and Purpose

To give students a greater understanding and appreciation of Node.js

Objectives

1. Learn about the history behind Node.js and why it was created
2. Understand its overall purpose and why it is used today
3. Understand great amount of benefits that come from utilizing Node.js
4. Also understanding the inevitable downfalls and negatives of Node.js
5. Understand how threads work in Javascript compared to Node.js
6. Understand how much computing power the single threaded Node.js can save
7. Understand the basics of the Node Package Manager - NPM
8. Take part in an in-class demo demonstrating Node.js
9. Understand an example of when Node.js can best be utilized - found on the handout
